WE DEVELOP AND PRODUCE PHARMACEUTICALS & FOOD SUPPLEMENTS

Aconitum, UAB
Kaunas, Lithuania

Aconitum Swiss, SARL
Courfaivre, Switzerland

Aconitum is a privately-owned fully integrated pharmaceutical manufacturer founded in 1999 and located in Lithuania (EU member since 2004).

Aconitum, JSC currently operates in a modern manufacturing plant which was built in 2009 according to EU GMP requirements.

QUALITY STANDARDS:

The manufacturing plant contains modern GMP-certified microbiology and chemical laboratories.

for medicines production

for food supplement production

for production of products for Islamic markets

PORTFOLIO STRUCTURE:

- ✓ Herbal medicines
- ✓ Food supplements
- ✓ Biomaterials
- ✓ Generics
- ✓ Veterinary products
- ✓ Medical devices

PHARMACEUTICALS

VINPOCETINE - aconitum

5 / 10 mg vinpocetine

40 hard capsules
50 tablets

CHARACTERISTICS AND EFFECTS

Vinpocetine

Vinpocetine is a time-tested remedy for the treatment of cerebral blood flow.

Cerebrovascular disorders are some of the most common causes of death and disability in the world, especially in industrialized countries. Stroke is the most common neurological cause of permanent incapacity as well as the decisive factor in high mortality. Cerebrovascular disorders occur during the life of many people (especially in older age) due to: brain artery atherosclerosis, thrombosis, cerebral hemorrhage or temporary cerebral circulatory disorders. In the initial stages cerebral circulatory disorders can lead to mild symptoms: mild memory loss, confusion or random lack of concentration and attention, more difficult memorisation during learning, impaired performance at work, insomnia, unstable balance and gait.

The active substance vinpocetine improves brain blood flow, reduces the brain cell sensitivity to the lack of oxygen and protects them from the damage. It is essential that, acting on cerebral blood vessels, the active substance does not increase the total blood pressure. It also improves the metabolism in the brain. It has been observed that vinpocetine has a positive effect on cognitive function and improves memory. Various studies have shown that vinpocetine increases the tolerance of mental, physical and emotional load.

Complex effects of VINPOCETINE-aconitum:

- selectively activates the cerebral blood flow and microcirculation;
- improves cerebral metabolism and blood rheology;
- acts as a neuroprotectant.

CTD

Form - tablets / hard capsules

Dossier type - bibliographic

Therapeutic category - optimizes brain circulation (ATC: N06BX18)

Registration status - tablets registered in Lithuania, Vietnam, Bulgaria, Bosnia and Herzegovina / hard capsules registered in Lithuania; Under registration in other countries

COMPOSITION

1 tablet contains:	
Vinpocetine	5 / 10 mg
1 capsule contains:	
Vinpocetine	5 / 10 mg

DOSAGE

Adult patients

5 mg - during the first 30 days take 1-2 capsules or tablets (5-10 mg) three times daily. Subsequently, the dose may be reduced to 1 capsule or tablet (5 mg) three times daily. The maximum daily dose is 30 mg of vinpocetine.

10 mg - take 1 capsule or tablet (10 mg) three times daily after meals (equivalent to 30 mg daily dose).

Elderly patients

Usually no dose adjustment is required for elderly patients. For patients with hepatic or renal impairment dose adjustment is required.

Children and adolescents

The effects of VINPOCETINE-aconitum in pediatric patients have not been studied. Persons younger than 18 years of age must not use the product.

Scientific Proof

OTC

LIVER

Livosil

Silymarin 140 mg

30 hard capsules
60 hard capsules

CHARACTERISTICS AND EFFECTS

Silymarin

Silymarin for natural liver protection and treatment!

Liver is one of the most important human organs that performs more than 500 different functions. The most important of them is detoxification, i.e. liver removes toxins, alcohol and other harmful substances such as ammonia from the body. Patients with liver problems do not feel any pain or disorders, so they may not determine when liver is damaged. Consumption of drugs, fatty foods, alcohol adds fat to the liver, but also damages it. Milk thistle is one of the oldest known herbal plants in medicine. It's most important part is the biologically active substance – silymarin. Silymarin inhibits the effect of liver damaging (hepatotoxic) substances, promotes regeneration of damaged liver cells, acts as an antioxidant, i.e. increases the levels of the main liver antioxidant – glutathione – in the liver.

Medicine is created for the treatment of:

- toxic liver damage;
- liver cirrhosis;
- chronic hepatitis

Livosil - herbal remedy that protects the liver, restores its cells after chemical drugs, fatty foods, alcohol and viral infections.

Always use **Livosil** capsules precisely as prescribed by physician. In all cases it is recommended to consult with your doctor or pharmacist. The medicinal product should be used not less than 3 months.

CTD

Form - hard capsules

Dossier type - bibliographic

Therapeutic category - liver therapy (ATC: A05BA03)

Registration status - registered in Lithuania, Vietnam

COMPOSITION

	1 capsule contains:
Silymarin (from Milk thistle (Silybum marianum) extract)	140 / 22,5 mg

DOSAGE

Adult patients

140 mg - the usual Livosil dose for adults is 280 to 420 mg per day. You can take one 140 mg hard capsule twice a day or one 140 mg hard capsule three times a day. **22,5 mg** - you can take three or four 22,5 mg hard capsules 3 times a day.

Elderly patients

For elderly patients with renal impairment dose adjustment is not required.

Children and adolescents

Livosil is not recommended for children and adolescents under 18 years of age.

Scientific Proof

Data included in this material are prone to verification according to local regulatory requirements. This material is not intended for consumer promotion. All content is the property of Aconitum which solely holds the right to update it or modify it without prior notice and give access to it.

Ginkobil

60 / 80 / 120 mg ginkgo extract

40 hard capsules

CHARACTERISTICS AND EFFECTS

Ginkgo extract

Dementia

This is a drop of intellect caused by a variety of diseases, accompanied by the damage of other mental functions and changes of perception, behaviour and other physical symptoms. This disorder can occur in case of various brain diseases and disorders, generally at an older age. It is assumed that it is caused by disturbed brain chemical metabolism. Dementia often is caused by high blood pressure, atherosclerotic vascular lesions, etc. Dizziness and ringing in the ears. It should be noted that it is not only a problem of the elderly that occurs with impaired cerebral circulation.

Cold limbs

Disruption of blood flow often leads to swollen legs, cold limbs and dizziness. Narrowing of the arteries means that less blood is delivered to the legs and arms, so they start to cool. Most often this occurs because of fatigue, anxiety, stress, fluid and micronutrient deficiency.

Ginkgo extract

And its active ingredients significantly improve cerebral and peripheral blood flow, brain cell condition, lower blood viscosity and improve memory.

Ginkobil is made from refined and quantified dry extract of ginkgo which treats:

- dementia;
- memory and attention disorders;
- dizziness and ringing in the ears;
- leg pain due to circulatory problems.

Scientific Proof 

Data included in this material are prone to verification according to local regulatory requirements. This material is not intended for consumer promotion. All content is the property of Aconitum which solely holds the right to update it or modify it without prior notice and give access to it.

COMPOSITION

1 capsule contains:	
Ginkgo extract (Ginkgo biloba)	60 / 80 / 120 mg

DOSAGE

Ginkobil hard capsules are taken by mouth after a meal, whole and with liquid.

Symptomatic treatment of organic disorders of brain activity.

60 mg

take 2 capsules 1-2 times daily (equivalent to 120 - 240 mg daily dose).

80 mg

take 1 capsule 2-3 times daily (equivalent to 160 - 240 mg daily dose).

120 mg

take 1 capsule 1-2 times daily (equivalent to 120 - 240 mg daily dose).

Increased walking distance free of leg pain if you suffer from peripheral arterial occlusion and vascular lesions or reduction of vertigo and tinnitus caused by senile changes.

80 mg

1 capsule 2 times daily (equivalent to 160 mg daily dose).

120 mg

take 1 capsule 1-2 times daily (equivalent to 120 to 240 mg daily dose).

FOOD SUPPLEMENTS

epigenetic line

WHAT IS EPIGENETICS?

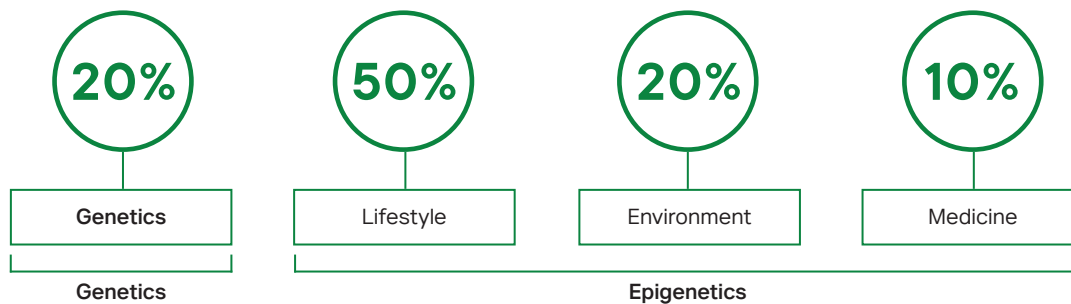

Epigenetics (from the Greek “epi” – above + genetics) is the science that studies the factors regulating gene expression without altering the DNA sequence.

The field of epigenetics proves that genes are not the only units of heredity. Environmental influences must also be taken into account.

The science of epigenetics has shown that environmental factors (including plants) influence human gene activity and can “switch” genes on or off. Therefore, the products in the Epigenetic Line **epigenetic line**  help support health-favorable gene expression and maintain the body's balance.

HOW DO EPIGENETIC PRINCIPLES APPLY IN MEDICINE?

The World Health Organization¹ states that health is influenced by:

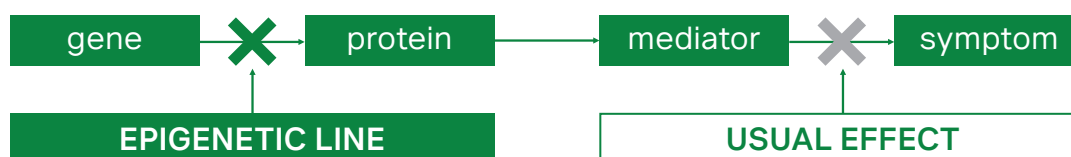

EPIGENETIC EFFECT

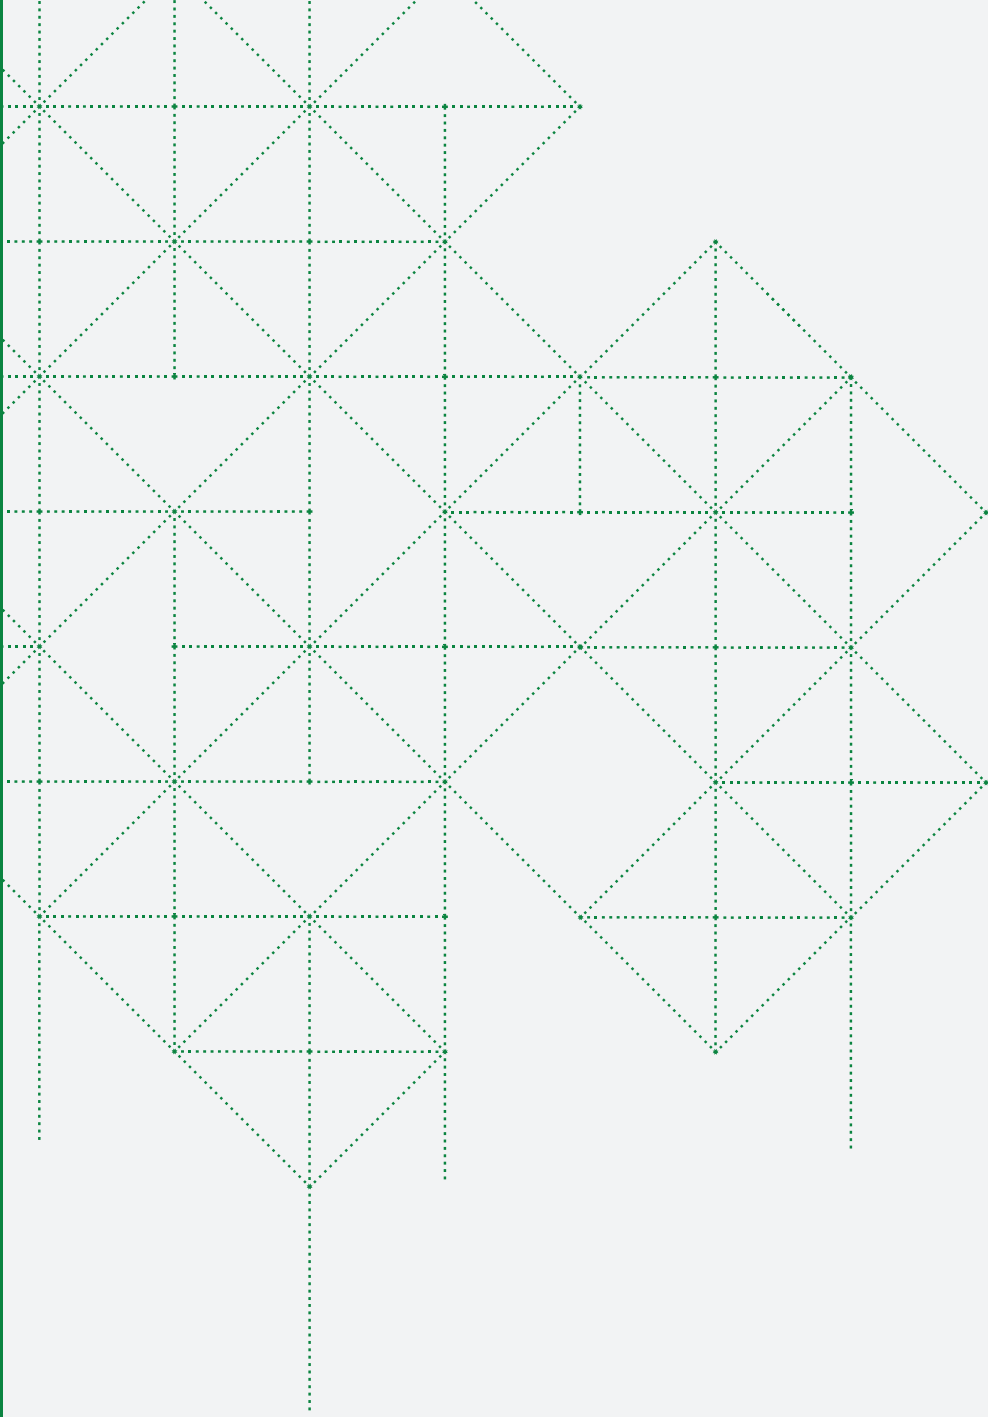

The influence of the environment on our genes increases as we age; however, the good news is that the epigenome is reversible. By reducing negative epigenetic marks, we can reactivate dormant genes, enabling them to successfully produce new proteins once again.

Genes are like instruction givers in the body—they govern everything that happens inside us. A gene will typically trigger the expression of a certain protein, then a mediator, and eventually a specific symptom will manifest.

Most conventional medicines manage symptoms rather than addressing the root cause of diseases. In contrast, epigenetic products target the underlying causes, not just the symptoms. Alongside lifestyle, environmental, and other epigenetic factors, plants also exhibit potent epigenetic effects. Therefore, we formulate epigenetic product lines by deeply understanding the epigenetic effects that plants and other valuable ingredient combinations will have.

EPIGENIX line

EPIGENIX line

EPIGENIX supplements are designed with the principle that lifestyle, nutrition, and environment can influence gene expression and overall well-being. Each formula addresses key epigenetic mechanisms – from stress and inflammation control to hormone and neural balance – to support long-term health, not just temporary symptom relief.

CLEAN LABEL

All EPIGENIX supplements follow clean label principles – pure, transparent, and free from unnecessary or artificial additives.

Only essential ingredients

Transparent labeling

Naturally sourced

Conscious wellness

Epigenix Gluco Balance

30 sachets

CHARACTERISTICS AND EFFECTS

EPIGENIX GLUCO BALANCE

A unique blend of active ingredients to support healthy blood glucose balance.

Helps improve insulin sensitivity, regulate fluctuations, and support metabolism – contributing to long-term glucose control and diabetes prevention.

Glucose fluctuations – supports balance of blood sugar levels

Metabolic syndrome – helps maintain metabolic health

Risk of type II diabetes – beneficial for prevention and long-term support

Adjunct to therapy – can be used alongside primary treatment for type II diabetes

OLIGOFRUCTOSE – NATURAL FIBER FOR MILD TASTE

In this supplement, oligofructose functions not only as a natural, mild sweetener but also as a prebiotic fiber that supports a balanced gut microbiota.

Prebiotic effect - Promotes the growth of beneficial gut bacteria and supports digestive system health.

Blood sugar control - Slows down glucose absorption, reduces glucose spikes, and improves insulin sensitivity.

Mineral absorption - Enhances the absorption of zinc and magnesium.

Increases satiety hormone secretion - Stimulates the secretion of GLP-1 and PYY from the gut, which helps regulate glucose levels and appetite.

COMPOSITION

	1 sachet contains:
Black elder (Sambucus nigra) fruits extract	400 mg
Bitter orange (Citrus aurantium) fruits extract	400 mg
Fenugreek (Trigonella foenum-graecum) seeds extract	400 mg
Red passionflower (Passiflora incarnata) flowers extract	300 mg
White mulberry (Morus alba) leaves extract	250 mg
Walnut (Juglans regia) extract	150 mg
Oligofructose	2580 mg
Chromium	200 mcg (500 %*)

*NRV_s - nutrient reference values

DOSAGE

Pour the content of sachet into a glass (150-200 ml) of water, mix, dissolve and drink.

Epigenix Epic Mood

14 sachets

CHARACTERISTICS AND EFFECTS

EPIGENIX EPIC MOOD

A food supplement designed to support emotional balance, mental clarity, and inner calm.

This supplement brings together carefully selected plant extracts, amino acids, and essential minerals that work synergistically to help the body adapt to emotional and physical stress, reduce nervous tension, and promote a stable, positive mood.

Helps maintain normal emotional balance and a positive mood

Supports relaxation and stress reduction

Multi-target approach

Supports healthy sleep quality and overall well-being

Contributes to normal cognitive and mental performance

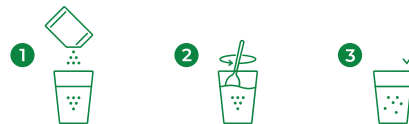

COMPOSITION

	1 sachet contains:
Glycine	1000 mg
Quercetin (from Japanese sophora (Sophora japonica) extract)	500 mg
Red passionflower (Passiflora incarnata) flowers extract	300 mg
Tea (Camellia sinensis) leave extract	100 mg
Golden root (Rhodiola rosea) roots extract	100 mg
True lavender (Lavandula officinalis) flowers extract	80 mg
Saffron (Crocus sativus) stigmas extract	20 mg
Peppermint (Mentha piperita) leaves extract	20 mg
Glycine	20 mg (200 %*)

*NRV_s - nutrient reference values

SLEEP

epigenetic line 

Epigenix Super Sleep

14 sachets

CHARACTERISTICS AND EFFECTS

EPIGENIX SUPER SLEEP

A food supplement without melatonin designed to support quality sleep and emotional balance.

While many products rely on melatonin, which directly influences circadian rhythm but may not be suitable for everyone, this formula focuses on natural modulation of the nervous system to promote relaxation and restful sleep.

Promotes relaxation and restful sleep

Supports nervous system function and emotional balance

Helps reduce tiredness and fatigue

Contributes to better stress management

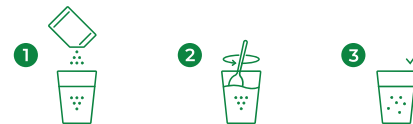

Significant magnesium dosage

COMPOSITION

	1 sachet contains:
Lemon balm (<i>Melissa officinalis</i>) herbs extract	500 mg
Motherwort (<i>Leonurus cardiaca</i>) herbs extract	500 mg
Glycine	300 mg
California poppy (<i>Eschscholzia californica</i>) aerial parts extract	200 mg
True lavender (<i>Lavandula officinalis</i>) flowers extract	20 mg
Magnesium	150 mg (40 %*)

*NRV_s - nutrient reference values
Source of magnesium - citrate.

Epigenix Well Weight

30 capsules

CHARACTERISTICS AND EFFECTS

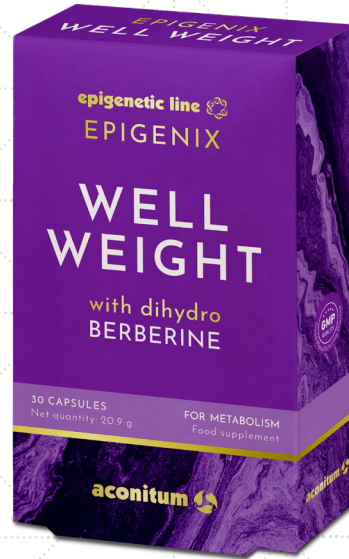

EPIGENIX WELL WEIGHT

A food supplement designed to support healthy metabolism and overall well-being.

Created for individuals facing challenges such as elevated glucose, uric acid, high blood pressure, or excess weight, this formula offers multi-target support for metabolic syndrome. By helping to balance key metabolic processes, it contributes to long-term health, improved resilience, and better quality of life.

Dihydroberberine is up to 50% more effective than regular berberine.

-  Supports healthy glucose metabolism
-  Helps regulate uric acid levels
-  Contributes to blood pressure balance
-  Supports weight management and metabolic health

COMPOSITION

	1 capsule contains:
Alpha-lipoic acid	200 mg
Dihydroberberine	150 mg
Phosphatidylserine	10 mg
Vitamin B ₆	10 mg (714,3 %*)
Copper	1 mg (100 %*)

*NRV_s - nutrient reference values

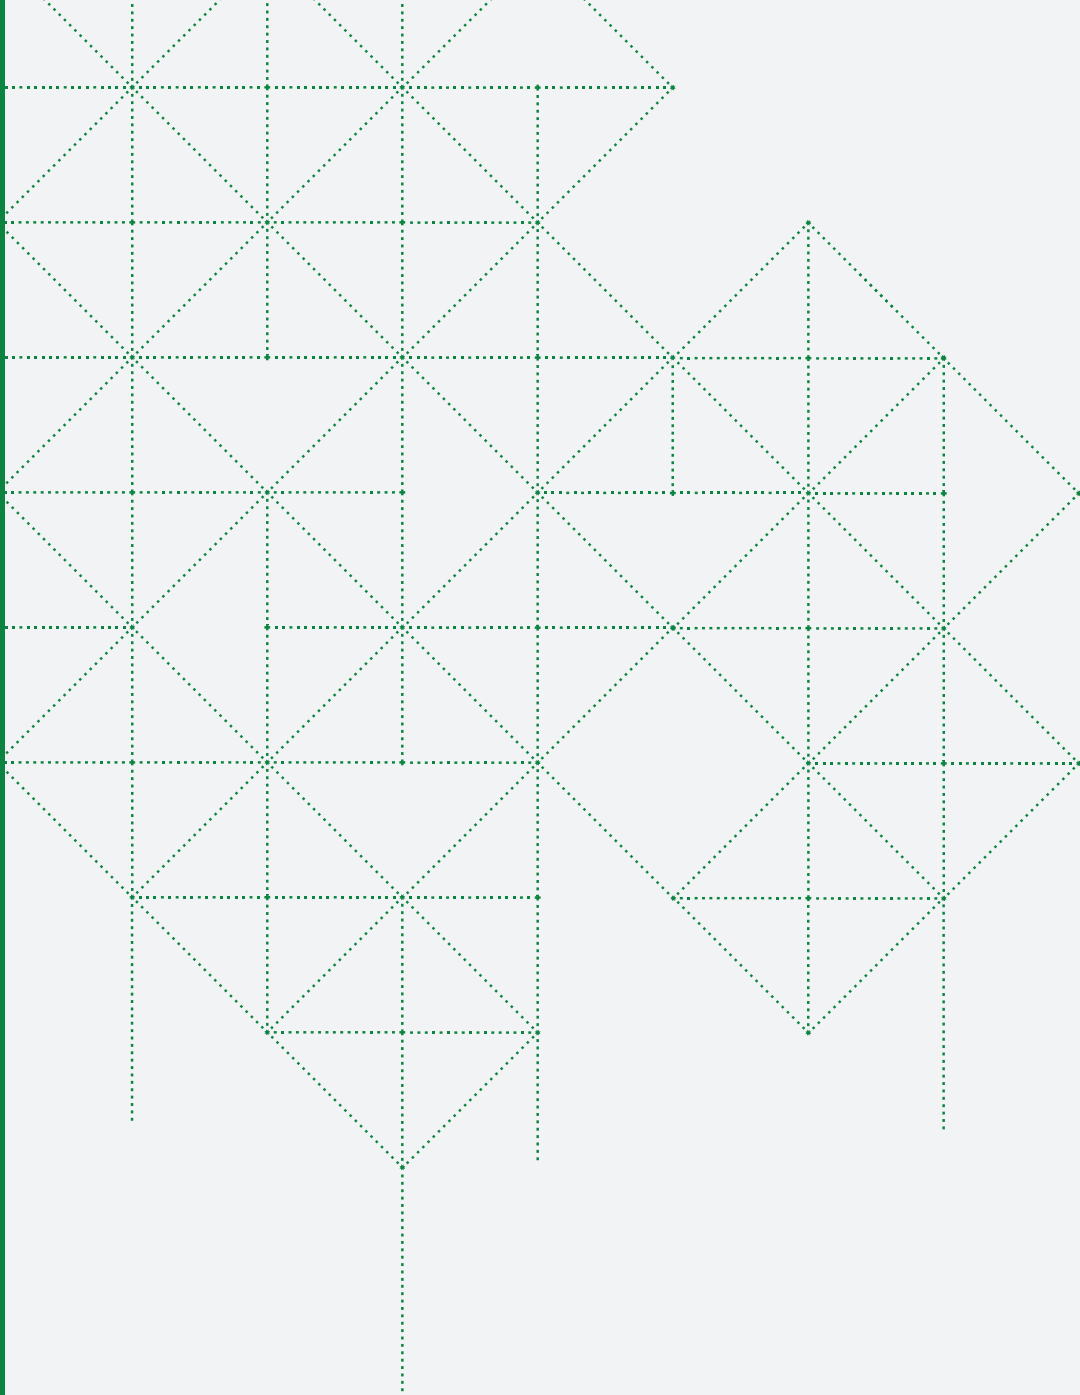

DOSAGE

Take 1 capsule after a main meal with a glass of water. It is recommended to use for 3 months every six months.

-  Multi-target approach for metabolic syndrome
-  Improves overall well-being and long-term disease control

Scientific Proof 

Data included in this material are prone to verification according to local regulatory requirements. This material is not intended for consumer promotion. All content is the property of Aconitum which solely holds the right to update it or modify it without prior notice and give access to it.

VIRONOX line

Vironox

Immuno Booster

7 sachets

CHARACTERISTICS AND EFFECTS

VIRONOX IMMUNO BOOSTER

Is a broad-spectrum food supplement with carefully selected ingredients, which supports important functions of the body and general well-being. Food supplement was developed based on various research projects in collaboration with the Virology Institute of the Lithuanian University of Health Science (LUHS).

Strengthens both innate and adaptive immunity, reduces the duration and severity of colds and other upper respiratory infections, and when taken at the first signs of illness, can shorten the duration of the illness by up to 44%.

Epigenetic effects

Quercetin can alter the expression of several human genes encoding protein targets of SARS-CoV-2. Ginger caused statistically significant increase in FoxP3 gene expression. FOXP3 is an essential molecular marker of Treg development and function in the thymus and peripheral lymphoid organs.

Supports immune system and well-being

Activates existing immune cells

Stimulates new immune cells production

COMPOSITION

	1 sachet contains:
Quercetin from Japanese pagoda-tree (<i>Sophora japonica</i>) extract	500 mg
Lysine	500 mg
Beta glucans from oat (<i>Avena sativa</i>) seeds extract	500 mg
Guarana (<i>Paullinia cupana</i>) seeds extract	200 mg
Propolis powder	200 mg
Vitamin C	1000 mg (1250 %*)
Zinc	25 mg (250 %*)
Ginger (<i>Zingiber officinale</i>) roots extract	500 mg

*NRV_s - nutrient reference values

Vironox

Brain Fog

14 sachets

CHARACTERISTICS AND EFFECTS

VIRONOX BRAIN FOG

Is a term used to describe symptoms such as: slowed thinking, memory disorders, mental fatigue, anxiety, irritability, sleep disorders, attention concentration and mood disorders, etc.

Alleviates symptoms of brain fog, enhances cognitive functions, helps manage stress, and restores mental and physical energy, ensuring quick recovery and brain health.

- 

Roseroot roots extract contributes to normal cognitive function
- 

Niacin contributes to normal psychological function
- 

Niacin contributes to normal functioning of the nervous system
- 

Passion flower extract contributes to the maintenance of normal sleep quality
- 

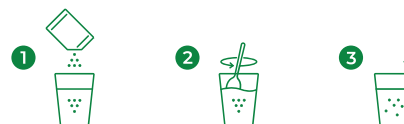

Riboflavin (vitamin B₂) contributes to normal energy metabolism

COMPOSITION

	1 sachet contains:
Betaine	500 mg
Artichoke (Cynara scolymus) leaves extract	500 mg
Roseroot (Rhodiola rosea) roots extract	250 mg
L-glutathione	150 mg
Marshmallow (Althaea officinalis) roots extract	200 mg
Passionflower (Passiflora incarnata) flowers extract	100 mg
Niacin	50 mg NE (313 %*)
Riboflavin (Vitamin B ₂)	10 mg (714 %*)

Vironox Herbus+ line

20 lozenges

CHARACTERISTICS AND EFFECTS

VIRONOX HERBUS

Natural herbal lozenges are for strong immune system, soothed throat and relieved cough. Lozenges contain natural herbal extract that have a positive effect on the respiratory tract, vocal cords and immune system. This line was created according to traditional medicine recipes used for hundreds of years and based on new epigenetic principles.

Lozenges for the throat offer triple action – anti-inflammatory, soothing, and antimicrobial—capable of reducing cold symptoms by up to 88% and shortening the duration of illness. The lozenges with hyaluronic acid and Icelandic moss instantly soothe the irritated throat mucosa, provide long-lasting hydration, and protect against further irritation.

Relieves irritated throat and pharynx

Helps maintain natural body defense and support normal immunity function

Helps boost vitality, maintain energy and fight fatigue

Helps maintain normal condition of respiratory tract

VIRONOX HERBUS with hyaluron

1 lozenge contains:

True aloe (Aloe vera) leaves extract	300 mg
Iceland lichen (Cetraria islandica) extract	80 mg
Hyaluronic acid	10 mg

VIRONOX HERBUS

Vitamin C	80 mg (100%*)
Propolis powder	15 mg
Iceland lichen (Cetraria islandica) extract	10 mg
Common sage (Salvia officinalis) leaves extract	10 mg
Peppermint (Mentha piperita) leaves extract	10 mg
Paperbark (Melaleuca leucadendra) barks extract	10 mg
Willow-leaved gum-tree (Eucalyptus globulus) leaves extract	5 mg
Menthol	5 mg

VIRONOX HERBUS KIDS

Black elder (Sambucus nigra) fruits extract	20 mg
Purple-coneflower (Echinacea purpurea) herbs extract	20 mg
Thyme (Thymus vulgaris) herbs extract	20 mg
Ginger (Zingiber officinale) roots extract	10 mg
Menthol	5 mg
Vitamin C	150 mg (187 %*)
Zinc	5 mg (50 %*)

*NRV_s - nutrient reference values

DOSAGE

1 lozenge every 2-3 hours up to maximum 4 lozenges in 24 hours for children.

1 lozenge every 2-3 hours up to maximum 5 lozenges in 24 hours for adults.

Vironox Guard

14 g

CHARACTERISTICS AND EFFECTS

Antiviral lip and nose balm

Alerts immune cells that infection has occurred

Reduces viral replication

Dermatologically tested

With anise oil

With interferon

CHARACTERISTICS AND EFFECTS

Immobilize & inhibit virus before they enter the body.

Lip and nose balm with interferon and anise essential oil. The innovative balm creates a protective layer and helps create an external barrier for your immunity.

COMPOSITION

	Ingredients
	Interferon alpha - 2b
	Essentials oils (Bergamia, Eucalyptus, Anise)
	Hydrolyzed collagen
	Lysozyme
	Water, vaseline, lanolin

DIRECTION FOR USE

Apply VIRONOX GUARD LIP AND NOSE BALM on the nose and lips. Store in a cool place.

LIBIDO line

Orange taste

Apple taste

Libido line

14x25 ml | 350 ml

CHARACTERISTICS AND EFFECTS

LIBIDO HER BLOOM

Maca roots extract helps to maintain female reproductive system function and normal physical activity, helps to maintain normal fertility and normal nervous system activity. Also sustains a normal state before and after menstruation. The supplement increases libido, improves skin hydration and elasticity, reduces wrinkles, and helps enhance hair condition and muscle endurance.

LIBIDO HIS RISE

Saffron extract helps maintain normal fertility and function. The supplement increases libido and energy, supports normal testosterone levels in the blood and reproductive function, supports normal mental and physical performance.

Helps maintain normal fertility and reproductive function (for men & women).

Supports normal testosterone levels in men, contributes to the female reproductive system, and helps maintain vitality.

Supports normal sexual, cognitive, mental and physical performance, as well as a healthy immune system.

Contributes to the normal condition of the skin, hair, nails, and connective tissues.

COMPOSITION

LIBIDO HER BLOOM

	1 vial (25 ml) contains:
Maca (<i>Lepidium meyenii</i>) roots extract	350 mg
Shatavari (<i>Asparagus racemosus</i>) roots extract	250 mg
Zinc	5 mg (50 %*)

*NRV_s - nutrient reference values

LIBIDO HIS RISE

	1 vial (25 ml) contains:

PREMIUM
JOURNEY TO
LONGEVITY

N o A G E

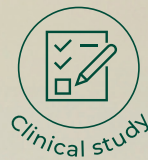

Age is just a number

A premium 5-week program powered by the synergy of science and nature, designed to slow down both visible and biological ageing. More than a beauty routine, it is a transformative approach to preserving vitality, boosting energy, and enhancing your natural radiance from within.

This advanced formula:

- Supports cellular longevity and sustains energy
- Helps slow down the ageing process
- Strengthens the immune system
- Is based on a clinically tested biomedical formula
- Features an innovative dual-delivery system (capsule + vial)

The result – renewed energy, stronger resilience, and a lasting, natural glow.

Jeunesse NMN | SPN

NMN - 14 x 25 ml | SPN - 14 x 25 ml

CHARACTERISTICS AND EFFECTS

Nicotinamide Mononucleotide (NMN) is a natural compound the body uses to produce NAD⁺, a molecule essential for cellular energy production, DNA repair, and normal metabolic processes. As NAD⁺ levels decline with age, NMN helps support vitality, energy metabolism, and healthy aging.

Spermidine is a naturally occurring polyamine essential for cell renewal, growth, and tissue regeneration. It supports autophagy - the natural cellular cleansing process - helping maintain cell health and promoting longevity.

Helps to maintain normal DNA synthesis and skin condition

With nikotinamide monokleotide (NMN) and spermidine (SPN)

Helps to maintain the normal functioning of hair, nails and immune system. Helps to protect cells from oxidative damage

For beauty and longevity

COMPOSITION

JEUNESSE NMN | SPN

NMN	1 vial (25 ml) contains:
Nicotinamide mononucleotide (NMN) from plant extract	250 mg
Quercetin (from Japanese pagoda-tree (Sophora japonica) extract)	150 mg
Zinc	10 mg (100 %*)

SPN	1 vial (25 ml) contains:
Spermidine (SPN)	3 mg
Astaxanthin (from freshwater green algae (Haematococcus pluvialis) extract)	2 mg
Hyaluronic acid	50 mg
Selenium	55 µg (100 %*)

JEUNESSE NMN	1 capsule contains:
Nicotinamide mononucleotide (NMN) (from Broccoli (Brassica oleracea) extract)	100 mg
Coenzyme Q ₁₀	25 mg
L-glutathione	25 mg
Zinc	1,5 mg (15 %*)

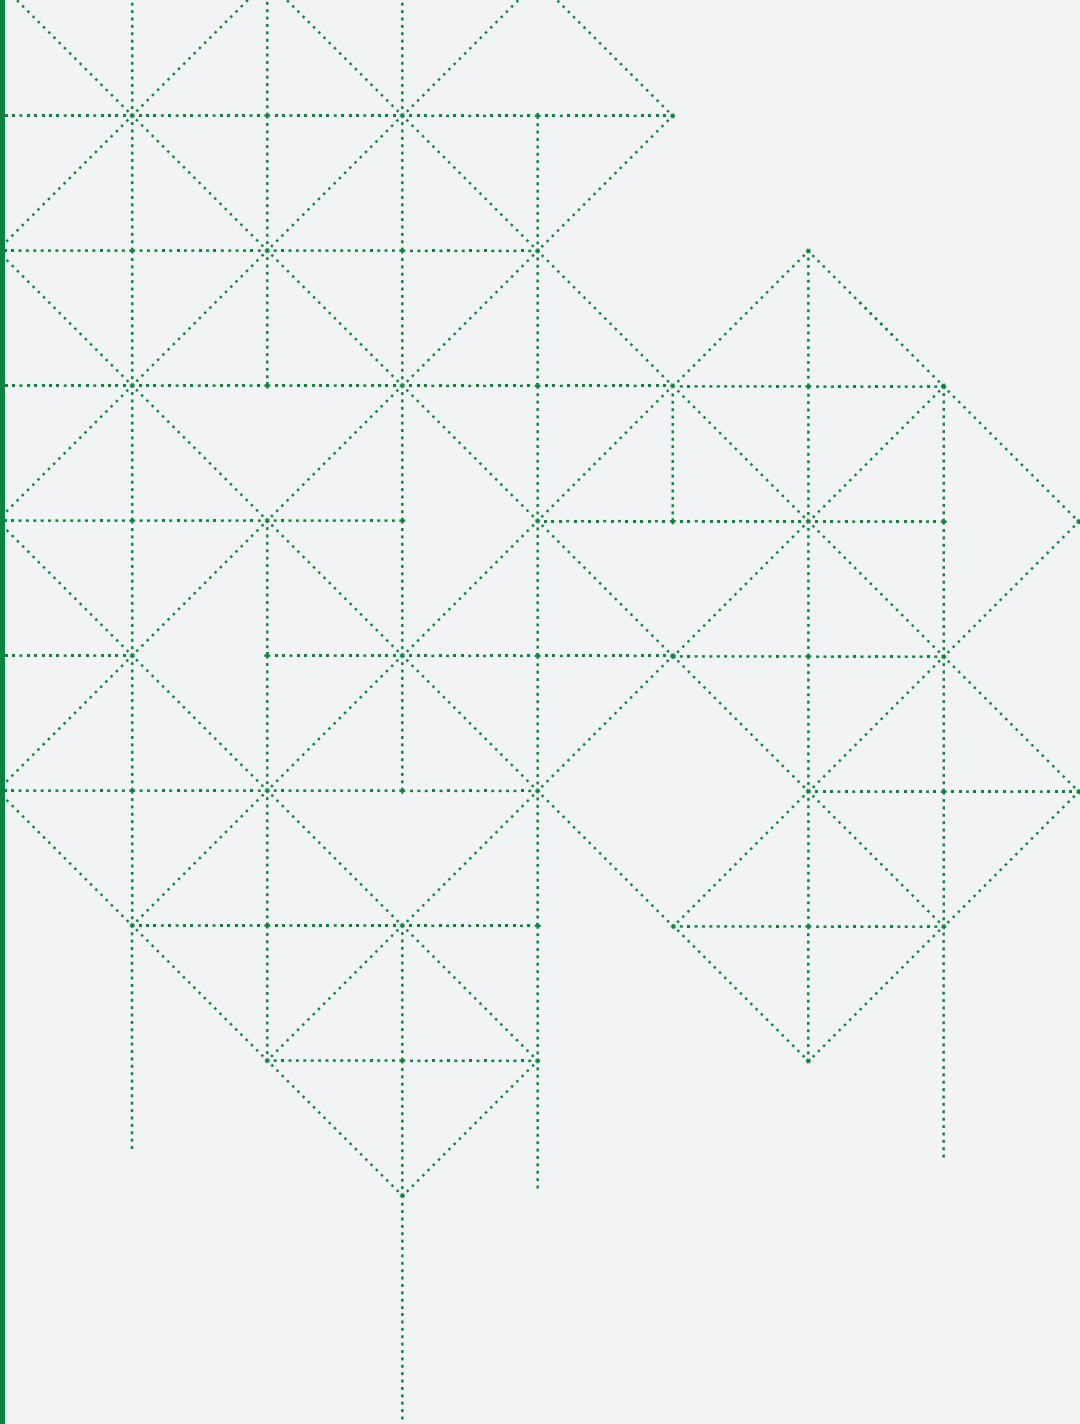

JEUNESSE SPN	1 capsule contains:
Spermidine (SPN) (from common wheat (Triticum aestivum) germ extract)	3 mg
Quercetin (from common seabuckthorn (Hippophae rhamnoides) fruits extract)	100 mg
Astaxanthin (from freshwater green algae (Haematococcus pluvialis) extract)	60 µg
Selenium	55 µg (100 %*)

*NRV_s - nutrient reference values

DOSAGE

CAPSULES: take 1 capsule daily with a glass of water.

VIALS: drink 1 vial (25 ml) per day. Use according to the weeks written on the packaging.

INOLAB line

Inolab

Powerful Magnesium

20 sachet

CHARACTERISTICS AND EFFECTS

The composition contains patented Cavacurmin® curcumin extract, which is up to 40 times more effective and is known for faster absorption because of a special microencapsulation technology.

Cavacurmin® curcumin

Cavacurmin® curcumin helps maintain the normal condition of bones and joints.

Magnesium

Magnesium helps maintain normal muscle function and electrolyte balance.

Black pepper

Black pepper helps to absorb curcumin.

Effective dosage –
400 mg = 107 % NRV

Proven high bioavailability –
based on absorption of
magnesium citrate

6× more effective – than
conventional magnesium source

Rapid absorption – in 1 hour

COMPOSITION

	1 sachet contains:
Magnesium	400 mg (107 %*)
Cavacurmin® Curcumin complex (from Common turmeric (Curcuma longa) roots extract)	400 mg
Black pepper (Piper nigrum) fruits	5 mg

*NRV_s - nutrient reference values

DOSAGE

One sachet per day.

For electrolyte balance

For muscles

For bones

For joints

For athletics

STRESS

GOOD MOOD

Inolab

Stress Resistance

30 capsules

CHARACTERISTICS AND EFFECTS

AFFRON® Saffron

AFFRON® Saffron (crocus sativus) extract helps maintain mental health, a positive mood and to relax.

Passionflower

Passionflower may help reduce anxiety, tension, nervousness and improves sleep quality.

L-5-Hydroxytryptophan seeds

L-5-Hydroxytryptophan seed may help reduce anxiety, improve mood. It is a source of 5 - HTP. 5-HTP is used in the production of serotonin.

Effective dosage – 30 mg of concentrated saffron extract

Rapid absorption – in 1 hour

Eco-friendly production technology – AFF®ON Cool Tech

Proven high bioavailability – 6 clinical trials

COMPOSITION

	1 capsule contains:
Cavacurmin® Curcumin complex (from Curcuma longa roots extract)	160 mg
Passionflower (Passiflora incarnata) flowers extract	150 mg
L-5-Hydroxytryptophan (from Griffonia simplicifolia seeds powder)	50 mg
Affron® Saffron (Crocus sativus) stigmas extract	30 mg
Niacinamide (Vitamin B ₃)	16 mg NE (100 %*)
Vitamin B ₆	1.4 mg (100 %*)
Thiamin (Vitamin B ₁)	1.1 mg (100 %*)
Vitamin B ₁₂	2.5 µg (100 %*)
Folic acid	200 µg (100 %*)

*NRV_s - nutrient reference values

DOSAGE

One capsule per day.

For stressful time

For good mood

For relaxation at bedtime

Inolab

Heart and Cholesterol Balance

30 capsules

CHARACTERISTICS AND EFFECTS

Black garlic

Black garlic helps maintain normal heart function and normal cholesterol level.

Veri-Te™ resveratrol

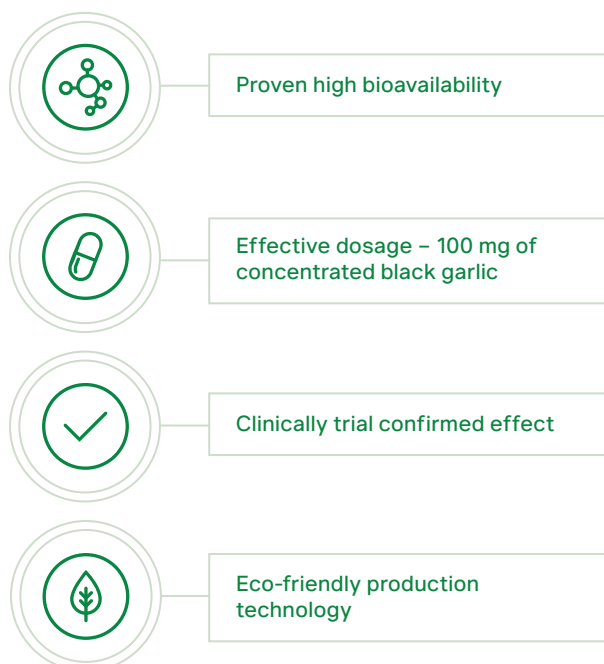

Veri-Te™ resveratrol enhances cardioprotective, cholesterol-lowering effects¹.

Coenzyme Q₁₀

Coenzyme Q₁₀ is beneficial for anti-inflammatory, antioxidant, cardioprotective effects.

Berberine

Berberine lowers LDL-cholesterol and triglyceride levels in the blood².

COMPOSITION

	1 capsule contains:
ABG25+® (from aged black garlic - Allium sativum extract)	100 mg
Veri-te™ (trans-resveratrol)	100 mg
Berberine hydrochloride (from holly mahonia (Mahonia aquifolium) extract)	50 mg
Coenzyme Q ₁₀	15 mg

*NRV_s - nutrient reference values

DOSAGE

One capsule per day.

-  For heart and blood vessels
-  For cholesterol balance
-  X₁₀ Superior antioxidant capacity

Likewise, it helps to reduce tension, stress and anxiety, whereby it also helps to improve sleep quality and the attainment of a good physical and mental well-being

Help to maintain normal psychological function, reduce tiredness and fatigue

DOSAGE

Capsules:

Take 1 capsule daily with a glass of water.

Lozenges:

Take 1-2 lozenges 2 times per day.

Liquid:

Take 20 drops diluted in a small amount of water 3 times per day (no more than 60 drops per day). Shake before using.

COMPOSITION

	1 lozenge contains:
Common valerian (<i>Valeriana officinalis</i>) roots extract	25 mg
Chinese hawthorn (<i>Crataegus pinnatifida</i>) fruits extract	25 mg
Roseroot (<i>Rhodiola rosea</i>) roots extract	15 mg
Menthal	5 mg
Vitamin B ₆	0,7 mg (50 %*)

	3,5 ml (60 drops) contains:
Common valerian (<i>Valeriana officinalis</i>) roots extract	100 mg
Chinese hawthorn (<i>Crataegus pinnatifida</i>) fruits extract	50 mg
Common motherwort (<i>Leonurus cardiaca</i>) herbs extract	50 mg
Lemon balm (<i>Melissa officinalis</i>) leaves extract	25 mg
Vitamin B ₆	1,4 mg (100 %*)
Folic acid	200 µg (100 %*)

	1 capsule contains:
Chinese hawthorn (<i>Crataegus pinnatifida</i>) fruits extract	100 mg
Common garlic (<i>Allium sativum</i>) bulb extract	100 mg
Magnesium	100 mg (26,7 %*)
Common valerian (<i>Valeriana officinalis</i>) roots extract	50 mg
Common motherwort (<i>Leonurus cardiaca</i>) herbs extract	50 mg
Vitamin B ₆	1,4 mg (100 %*)
Folic acid	200 µg (100 %*)
Vitamin B ₁₂	2,5 µg (100 %*)

Calm heart

Cholesterol Balance

30 capsules

CHARACTERISTICS AND EFFECTS

CALM HEART CHOLESTEROL BALANCE

Has wide, carefully selected composition and triple effect. This food supplement was created to maintain normal cholesterol concentration, heart function and calm down after experiencing stress.

- 

Helps to increase antioxidative capacity of the body, maintains proper level of cholesterol and proper functioning of the heart
- 

For normal heart function and cholesterol balance
- 

Helps to relax and contributes to normal psychological function
- 

1 capsule - 3 effects
- 

With aged black garlic

COMPOSITION

	1 capsule contains:
Aged black garlic ABG25+® (from garlic (<i>Allium sativum</i>) extract)	100 mg
Berberine hydrochloride (from holly mahonia (<i>Mahonia aquifolium</i>) extract)	70 mg
Chinese hawthorn (<i>Crataegus pinnatifida</i>) fruits extract	50 mg
Common valerian (<i>Valeriana officinalis</i>) roots extract	50 mg
Vitamin B ₆	1,4 mg (100 %*)
Folic acid	200 µg (100 %*)

*NRV_s - nutrient reference values

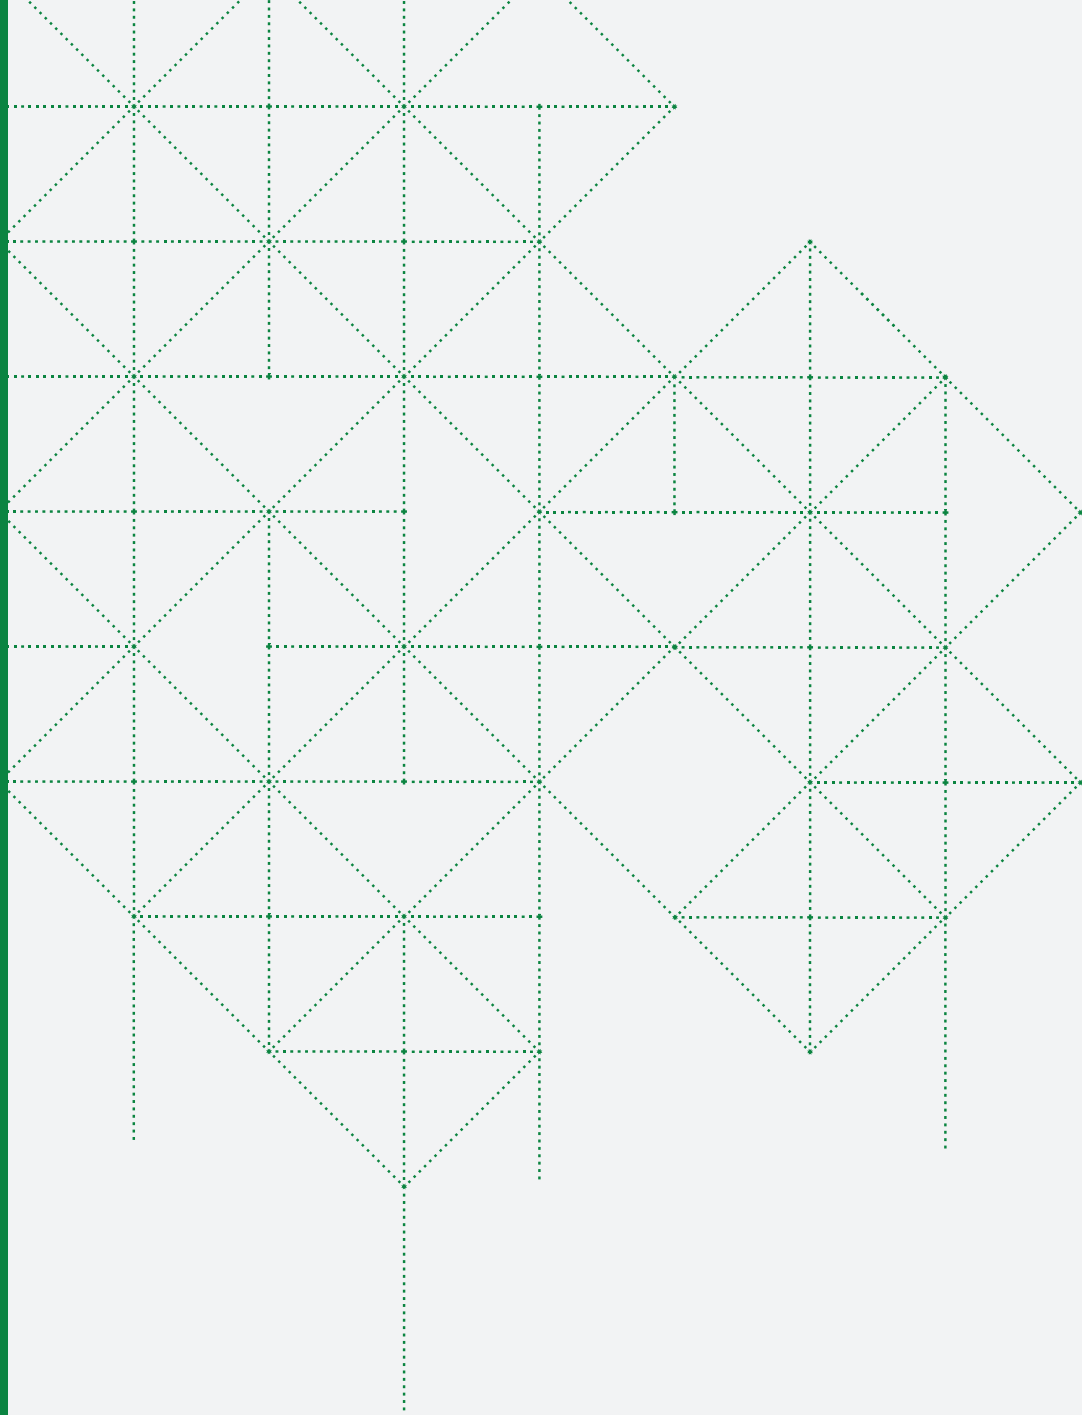

DOSAGE

SWEET DREAMS line

Sweet dreams line

15-30 capsules | 150 ml liquid

CHARACTERISTICS AND EFFECTS

SWEET DREAMS

Phytomelatonin – a naturally derived melatonin, obtained through fermentation of 5-hydroxytryptophan.

Has double effect - reduces tension and helps to have a better sleep. Active ingredients help to reduce tension and anxiety, reduce the time taken to fall asleep and improve the quality of sleep.

Supports the natural circadian rhythm, helping users regulate their sleep-wake cycle even when dealing with shift work or travel-induced disruptions.

COMPOSITION

	1 capsule contains:
Common valerian (<i>Valeriana officinalis</i>) roots extract	110 mg
Wild chamomile (<i>Matricaria recutita</i>) flowers extract	90 mg
Lemon balm (<i>Melissa officinalis</i>) herbs extract	80 mg
5-hydroxytryptophan (from griffonia (<i>Griffonia simplicifolia</i>) seeds powder)	4 mg
Common motherwort (<i>Leonurus cardiaca</i>) herbs extract	50 mg
Melatonin	1 mg
Vitamin B ₁₂	2.5 µg (100 %*)

*NRV_s - nutrient reference values

	1 dose (15 ml) contains:
GABA (gamma-aminobutyric acid)	99 mg
5-hydroxytryptophan (from griffonia (<i>Griffonia simplicifolia</i>) seeds powder)	15 mg
Melatonin	1 mg

	1 capsule contains:
Melatonin	1 mg

DOSAGE

Capsules:

Take 1 capsule before sleep with a glass of water.

Liquid:

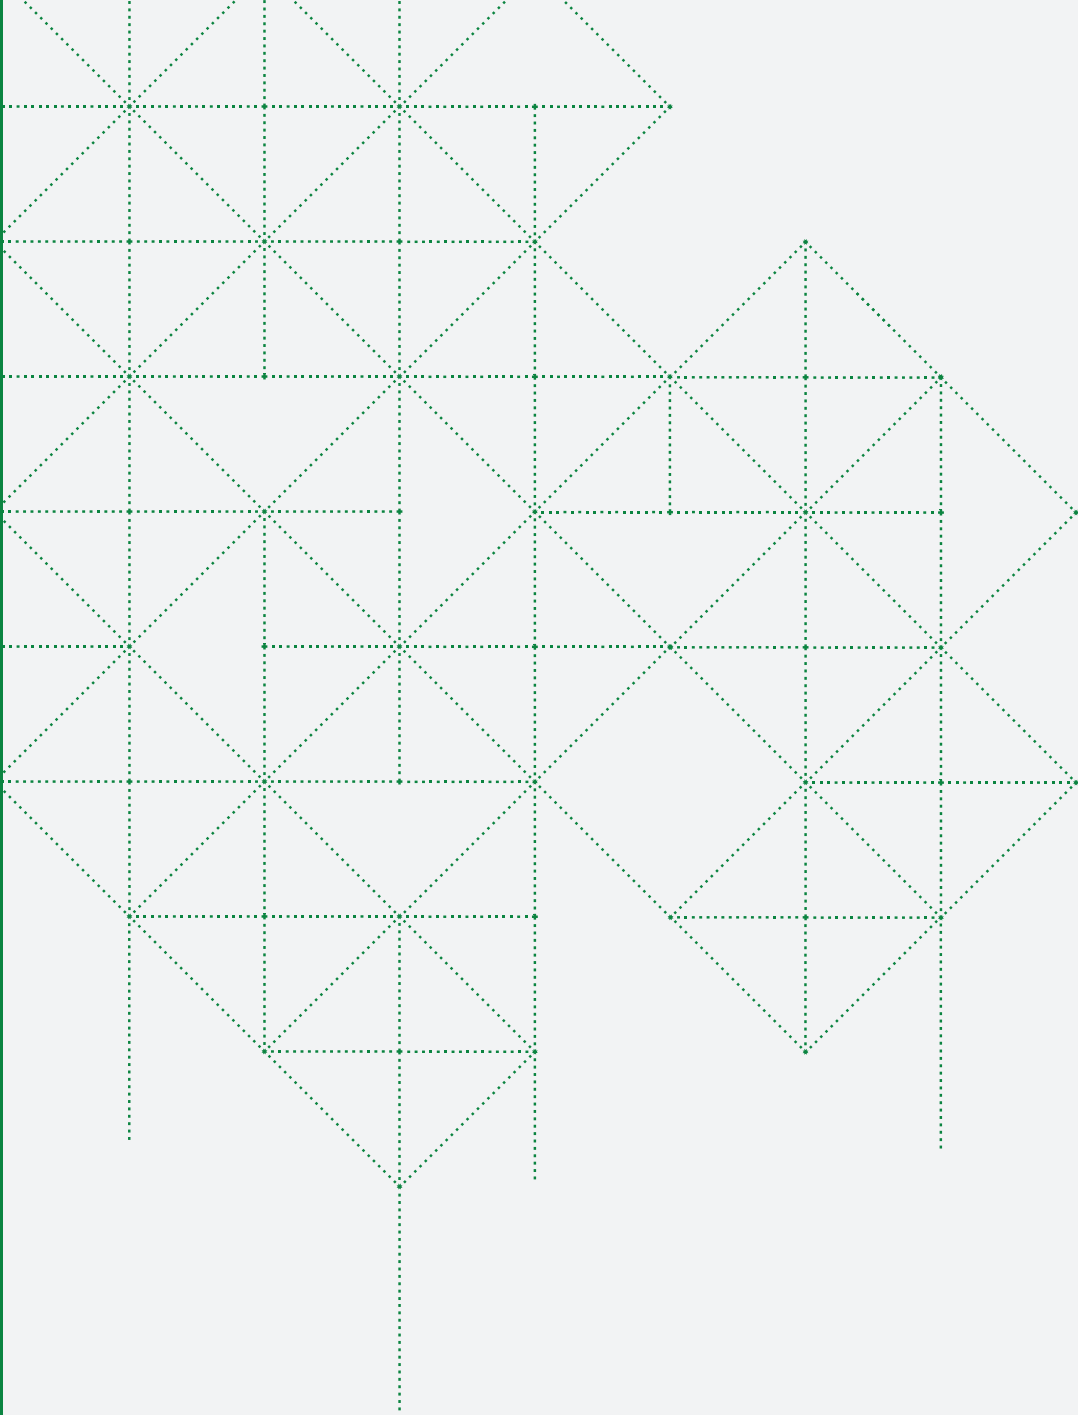

For adults and children over 12 years take 15 ml (3 teaspoons) 30 minutes before bed.

Scientific Proof

Data included in this material are prone to verification according to local regulatory requirements. This material is not intended for consumer promotion. All content is the property of Aconitum which solely holds the right to update it or modify it without prior notice and give access to it.

Food supplement

FOR MEN & WOMEN

Prostosan forte

30 capsules

CHARACTERISTICS AND EFFECTS

PROSTOSAN FORTE

Is a balanced combination of herbal extracts which supports the prostate and urinary track functions, increases testosterone level in the blood and improves the condition of hair by reducing the hair loss.

Supports prostate health, improves urinary flow, and reduces urgency, especially at night. It is especially suitable for men in their 40s and older, helping them manage age-related prostate changes and reduce the risk of prostate conditions.

Contributes to normal testosterone concentration in blood, normal fertility and reproduction

Potenzine superior

30 tablets

CHARACTERISTICS AND EFFECTS

POTENZINE SUPERIOR

Composition is designed to maintain a masculine strength and energy. Helps to maintain testosterone levels naturally, promoting better physical performance and overall strength.

L-arginine, which helps enhance nitric oxide production, promoting better blood circulation and improving physical health.

Helps to maintain sexual function, stamina and energy

Pygeum (Pygeum africanum) barks extract	50 mg
Sea-buckthorn (Hippophae rhamnoides) fruits extract	24 mg
Ginseng (Panax ginseng) roots extract	20 mg
Zinc	5 mg (50%*)
Vitamin D ₃	6,25 µg (125%*)

DOSAGE

Take 1 capsule 2 times per day with meals.

COMPOSITION

POTENZINE SUPERIOR

1 tablet contains:

L-arginine hydrochloride	500 mg
Tribulus (Tribulus terrestris) fruits extract	100 mg
Ginseng (Panax ginseng) roots extract	100 mg
Zinc	5 mg (50 %*)

*NRV_s - nutrient reference values

DOSAGE

Take 1 tablet per day with meals.

Supra Formula Beauty

14x25 ml | 350 ml

CHARACTERISTICS AND EFFECTS

SUPRA FORMULA BEAUTY

Is a dietary supplement designed to nourish skin, hair, and nails from within. This all-in-one product combines carefully selected ingredients: 7000 mg of high-quality patented hydrolyzed Peptan collagen, hyaluronic acid, as well as essential vitamins and minerals important for daily beauty care.

The formula is enriched with blackcurrant juice, making it pleasant to drink, while the convenient bottle format allows you to easily incorporate this ritual into your daily routine. This beauty formula is created for those seeking a balanced, all-in-one solution.

Selenium helps maintain normal hair and nail condition

Biotin helps maintain normal skin condition

Vitamin C helps maintain normal collagen formation, which is necessary for normal skin function

COMPOSITION

	1 vial (25 ml) contains:
Collagen Peptan®	7000mg
Hyaluronic acid	20 mg
Zinc	10 mg (100 %*)
Silicon (from horsetail (Equisetum arvense) herbs extract)	5 mg
Biotin	250 µg (500 %*)
Selenium	50 µg (91 %*)
Vitamin C	40 mg (50 %*)

*NRV_s - nutrient reference values

DOSAGE

Drink 1 vial (25 ml) per day.
